31. Outpatient Prescription Drugs

Introduction/Prior Authorization	<p>We provide Benefits for drugs and medicines for use outside a Hospital and/or obtained at a pharmacy that require a Physician's prescription. Certain medications or classes of medication may require Prior Authorization. To receive Prior Authorization, Your Physician will need to submit to Us a statement of Medical Necessity. Certain medications are subject to utilization programs that require You to try to use a therapeutic alternative before another medication will be considered a Covered Service. Your Physician may submit to Us a statement of Medical Necessity if the utilization program is not appropriate for Your medical condition. Certain medications may be subject to a utilization program that limits the dispensed quantity of prescription medications in compliance with FDA-approved dosage guidelines.</p> <p>We permit the early refill of prescription eye drops at a retail pharmacy when 25% or less of the Covered Person’s prescription remains or through a mail-order pharmacy when 50% or less of the Covered Person’s prescription remains. Earlier refills of prescription eye drops may be permitted if Prior Authorization is obtained.</p> <p>In the event You are presently taking a prescription drug, We will notify You electronically, or in writing, upon Your request at least 30 days prior to the deletion of such prescription drug.</p>
Drug Rebates and Credits	<p>We contract with a pharmacy benefit manager (“PBM”) for certain prescription drug administrative services, including prescription drug rebate administration and pharmacy network contracting services.</p> <p>Under the agreement, the PBM obtains rebates from drug manufacturers based on the utilization of certain prescription products by You and other Covered Persons, and PBM retains the benefit of the rebate funds prior to disbursement. In addition, pharmaceutical manufacturers pay administrative fees to the PBM in connection with PBM’s services of</p>

administering, invoicing, allocating, and/or collecting rebates. Such administrative fees retained by the PBM in connection with its rebate program do not exceed the greater of (i) 4.58% of the Average Wholesale Price, or (ii) 5.5% of the wholesale acquisition cost of the products. AWP does not represent a true wholesale price, but rather is a fluctuating benchmark provided by third party pricing sources. PBM may also receive other service fees from manufacturers as compensation for various services unrelated to rebates or rebate-associated administrative fees.

In addition, We and the PBM also contract with pharmacies to provide prescription products at discounted rates for Covered Persons. The discounted rates paid by the PBM and Us to these pharmacies differ among pharmacies within a network, as well as between networks. For pharmacies that contract with the PBM, We pay a uniform discount rate under Our contract with the PBM regardless of the various discount rates PBM pays to the pharmacies. Thus, where our rate exceeds the rate the PBM negotiated with a particular pharmacy, the PBM will realize a positive margin on the applicable prescription. The reverse may also be true, resulting in negative margin for the PBM. In addition, when the PBM receives payment from Us before payment to a pharmacy is due, the PBM retains the benefit of the use of these funds between these payments. We are guarantee a minimum level of discount whether through the PBM or where we directly contract with network pharmacies, which could result in the amount paid by You to be more or less than the amount PBM and/or We pay to pharmacies.

We are not acting as a fiduciary with respect to rebate administration, pharmacy network management, or the prescription drug plan. We receive rebates from the PBM and may receive positive margin in connection with the pharmacy network, as well as other financial credits, administrative fees and/or other amounts from network pharmacies, drug manufacturers or the PBM (collectively “Financial Credits”). We retain sole and exclusive right to all Financial Credits, which constitute Our property (and are not plan assets), and We may use such Financial Credits in Our discretion, including, for example, to help stabilize Our overall rates and to offset expenses, and We do not share Financial Credits with You.

Without limitation to the foregoing, the following (“Financial Credit Rules”) apply: (1) You have no right to receive, claim or possess any beneficial interest in any Financial Credits; (2) Applicable drug benefit Copayment, Coinsurance, ,OPD Deductible and/or maximum allowable benefits (including without limitation Calendar Year Maximum and Lifetime Maximum benefits) are in no way adjusted or otherwise affected as a result of any Financial Credits, except as may be required by law; (3) Any Deductible and/or Coinsurance that you must pay for prescription drugs is based upon the Allowable Charge at the pharmacy, and does not change as a result of any Financial Credits, except as may be required by law; and (4) Amounts paid to pharmacies or any prices charged at

pharmacies are in no way adjusted or otherwise affected as a result of any Financial Credits.

SECTION F. COORDINATION OF BENEFITS (COB)

1. Coordination Of Benefits

Individuals typically send their claims for medical services to every Plan that covers them. As a result, most plans have a Coordination of Benefits (COB) provision. A COB provision allows Plans to work together so that the total amount of all payments by all Plans will never be more than the Allowable Expense.

2. Definitions Applicable to this Section

- a. **Allowable Expense** means a medical expense or service including Deductibles, Coinsurance or Copayments that is covered in full or in part by one or more of the Plans covering the person for whom the claim is made. An Allowable Expense does not include dental coverage or group-type accident only coverage. If a Plan is advised that all plans covering a Covered Person are high-deductible health plans and the Covered Person intends to contribute to a health savings account, the primary high-deductible health plan's deductible is not an Allowable Expense, except for any health care expense incurred that is not subject to the deductible as described in Section 223(c)(2)(C) of the Internal Revenue Code of 1986. A medical expense or service or a portion of an expense or service that is not covered by any of the Plans is not an Allowable Expense. Any expense that a provider by law or in accordance with a contractual agreement is prohibited from charging a Covered Person is not an Allowable Expense. The difference between the cost of a private Hospital room and the cost of a semi-private Hospital room is not considered an Allowable Expense unless the private room is Medically Necessary. When a Plan provides benefits in the form of services, the reasonable cash value of each service will be considered as both an Allowable Expense and a benefit paid.

When benefits are reduced under a primary Plan because a Covered Person did not comply with the Plan provisions, the amount of that reduction will not be considered an Allowable Expense. Examples of these provisions are those related to second surgical opinions, precertification of admissions or services, or because the Covered Person has a lower benefit because the Covered Person did not use a Preferred Provider.

If the primary Plan is a Closed Panel Plan and the secondary Plan is not a Closed Panel Plan, the secondary Plan will pay or provide benefits as if it were primary when a Covered Person uses a non-Closed Panel provider, except for Emergency Services or authorized referrals that are paid or provided by the primary Plan.

If a Covered Person is covered under 2 or more Plans that compute their benefit payments on the basis of usual and customary fees or relative value schedule reimbursement or other similar reimbursement methodology, any amount charged by the provider in excess of the highest reimbursement amount for a specified benefit is not an Allowable Expense.

If a Covered Person is covered under 2 or more Plans that provide benefits or services on the basis of negotiated fees or if one Plan calculates its benefits or services on the basis of usual, customary and reasonable fees and another Plan provides its benefit on the basis of negotiated fees then any amount in excess of the highest of the Plan's fees is not an Allowable Expense.

- b. **Closed Panel Plan** means a plan that provides health benefits to covered persons primarily in the form of services through a panel or provider that have contracted with or are employed by the plan, and that limits or excludes benefits for services provided by other providers, except in cases of emergency or referral by a panel member.
- c. **Plan** means any arrangement that provides coverage for medical services. COB applies to only the following Plans:
 - (1) Group coverage, including insured, self-funded, accident only, or Closed Panel Plans.
 - (2) Individual coverage, including insured or Closed Panel Plans, issued on or after January 1, 2014.
 - (3) Coverage under any governmental program(s) to include any coverage required or provided by statute(s). Benefits available from Part A and Part B of Medicare are included. However, benefits under a state Medicaid program are not included;
 - (4) The medical care components of group long-term care contracts, such as skilled nursing care.

The term "Plan" applies separately to each policy, contract, or other arrangement for medical services. The term "Plan" also applies separately to that part of any such policy, contract, or other arrangement for medical services that coordinates its benefits with other Plans and to that part that does not.

3. Order of Benefit Determination Rules

Plans use COB to determine which Plan should pay first (primary Plan) for the medical service. Benefits payable under another Plan include the benefits that would have been payable if You had filed a claim for them.

The order of benefit determination is based on the first of the following applicable rules:

a. Non-Dependent:

The benefits of a Plan which covers the person as other than a Dependent will be determined before the benefits of a Plan which covers such person as a Dependent.

b. Dependent Child/Parents not Separated or Divorced:

Except for a Dependent child whose parents are separated or divorced, the benefits of a Plan of the parent whose birthday falls earlier in a year are determined before those of the Plan of the parent whose birthday falls later in that year. If both parents have the same birthday, the benefits of the Plan which covered the parent longer are determined before those of the Plan which covered the other parent for a shorter period of time. The word birthday refers only to the month and day in a Calendar Year, not the year in which the person was born.

If a Plan does not have the provisions of this paragraph b. regarding Dependents, which results either in each Plan determining its benefits before the other or each Plan determining its benefits after the other, the provisions of this paragraph b. shall not apply, and the rule set forth in the Plan which does not have the provisions of this paragraph b. shall determine the order of benefits.

c. Dependent Child/Parents Separated or Divorced:

In the case of a Dependent child whose parents are separated or divorced, benefits for the child are determined in this order:

- (1) First, the Plan of the parent with custody of the child;
- (2) Then, the Plan of the spouse of the parent with custody of the child; and
- (3). Then, the Plan of the parent not having custody of the child;
- (4) Finally, the Plan of the spouse of the noncustodial parent.

Notwithstanding (1), (2), (3) or (4) above, if there is a court decree which would otherwise establish financial responsibility for the medical expenses with respect to the child, the benefits of a Plan which covers the child as a Dependent of the parent with such financial responsibility shall be determined before the benefits of any other Plan which covers the child as a Dependent child. If a court decree states both parents have financial responsibility for the medical expenses, then the provisions of paragraph b. of this subsection apply.

d. Dependent Child/Joint Custody:

If the specific terms of the court decree state that the parents shall share joint custody, without stating that one of the parents is responsible for the medical expenses of the child, the Plans covering the child shall follow the rules outlined in paragraph b. above for a Dependent child of parents who are not separated or divorced.

e. Dependent Child of Non-Parents:

In the case of a Dependent child covered under more than one plan of individuals who are not the parents of the child, the order of benefits shall be determined, as applicable, under paragraph b. or c. of this subsection as if those individuals were parents of the child.

f. Dependent Child / Spouse Coverage:

If a person has coverage as a Dependent child under either or both parents' plans and also has his or her own coverage as a dependent under a spouse's plan, the Plans shall follow the rules outlined in paragraph i. below. If the coverage under the Plans began on the same date, the order of benefits shall be determined by applying the birthday rule outlined in paragraph b. above to the dependent's parent(s) and spouse.

g. Active/Inactive Employee:

The benefits of a Plan which covers a person as an Employee who is neither laid off nor retired (or as that Employee's Dependent) are determined before those of a Plan which covers that person as a laid off or retired Employee (or as that Employee's Dependent). If the other Plan does not have this rule and if, as a result, the Plans do not agree on the order of benefits, this rule is ignored.

h. Continuation Coverage:

If a person whose coverage is provided under continuation of coverage pursuant to federal or state law is also covered under another Plan, benefits are determined in the following order:

- (1) First, the Plan covering the person as other than a Dependent (or as that person's Dependent); and
- (2) Second, the benefits under the continuation coverage.

If the other Plan does not have this rule and if as a result, the Plans do not agree on the order of benefits, this rule is ignored.

i. Longer/Shorter Length of Coverage:

If the above rules do not establish an order of benefit determination, the benefits of a Plan which has covered the person for a longer period of time shall be determined before the benefits of a Plan which has covered such person for a shorter period of time.

The claimant's length of time covered under a Plan is measured from his first date of coverage under that Plan. If that date is not readily available, the date the claimant first became a member of the group shall be used as the date from which to determine the length of time the claimant's coverage under the present Plan has been in force.

j. Medicare:

When benefits under the Contract are being coordinated with any benefits available by Medicare, the Federal Medicare Secondary Payor Rules in effect at that time will apply and this Coordination of Benefits section shall not apply.

k. Plans without COB Provisions:

If a Plan does not have a COB provision, it will always be considered as the primary Plan.

l. Plans Share Equally:

If none of the above rules determine the primary Plan, the Allowable Expenses shall be shared equally between the Plans.

4. Effect on the Benefits of this Plan

- a. When this Plan is secondary, it may reduce its benefits so that the total benefits paid or provided by all Plans for the claim does not exceed 100% of the total Allowable Expense for that claim. In determining the amount to be paid for any claims, the secondary plan will calculate the benefits it would have paid in the absence of other health care coverage and apply that calculated amount to any allowable expense under its plan that is unpaid by the Primary plan. The secondary plan may then reduce its payment by the amount so that, when combined with the amount paid by the primary plan, the total benefits paid or provided by all plans for the claim do not exceed the total Allowable Expense for that claim. In addition, the secondary plan shall credit to its plan deductible any amounts it would have credited to its deductible in the absence of other health care coverage.
- b. If a Covered Person is enrolled in two or more Closed Panel Plans and if, for any reason, including the provision of service by a non-Closed Panel provider, benefits are not payable by one Closed Panel Plan, COB shall not apply between that Plan and the other Closed Panel Plan.

5. Right to Receive and Release Necessary Information

In order to decide if this COB section (or any other Plan's COB section) applies to a claim, We (without the consent of or notice to any person) have the right to:

- a. Release to any person, insurance company or organization, the necessary claim information; and
- b. Receive from any person, insurance company or organization, the necessary claim information.

Any person claiming Benefits under the Contract must give Us any information needed by Us to coordinate those Benefits.

6. Facility of Payment

If another Plan makes a benefit payment that should have been made by Us, then We have the right to pay that other Plan any amount necessary to satisfy Our obligation.

SECTION G. TERMINATING THE CONTRACT

1. Terminating a Covered Person's Coverage

We may terminate the Contract and/or a Covered Person's coverage on the earliest of the dates specified below:

- a. On the last day of the month for which Premium has been paid if You fail to pay any required Premium. We may recover from You Benefits We paid subsequent to the date of termination;

NOTICE OF

MISSOURI LIFE AND HEALTH INSURANCE GUARANTY ASSOCIATION
RSMo 376.715, et. seq.

This notice provides a brief summary of the Missouri Life and Health Insurance Guaranty Association (“the Association”) and the protection it provides for policyholders. This safety net was created under Missouri law, which determines who and what is covered and the amounts of coverage.

The Association was established to provide protection in the unlikely event that your life, annuity or health insurance company becomes financially unable to meet its obligations and is taken over by its Insurance Department. If this should happen, the Association will typically arrange to continue coverage and pay claims, in accordance with Missouri law, with funding from assessments paid by other insurance companies.

The basic protections provided by the Association are:

- Life Insurance
 - \$300,000 in death benefits
 - \$100,000 in cash surrender or withdrawal values
- Health Insurance
 - \$500,000 in hospital, medical and surgical insurance benefits
 - \$300,000 in disability insurance benefits
 - \$300,000 in long-term care insurance benefits
 - \$100,000 in other types of health insurance benefits
- Annuities
 - \$250,000 in withdrawal and cash values

The maximum amount of protection for each individual, regardless of the number of policies or contracts, is as follows:

- \$300,000 in aggregate for all types of coverage listed above, with the exception of basic hospital, medical, and surgical insurance or major medical insurance
- \$500,000 in aggregate for basic hospital, medical, and surgical insurance or major medical insurance
- \$5,000,000 to one policy owner of multiple nongroup policies of life insurance, whether the policy owner is an individual, firm, corporation, or other person, and whether the persons insured are officers, managers, employees, or other persons

Note: Certain policies and contracts may not be covered or fully covered. For example, coverage does not extend to any portion(s) of a policy or contract that the insurer does not guarantee, such as certain investment additions to the account value of a variable life insurance policy or a variable annuity contract. There are also various residency requirements and other limitations under Missouri law.

To learn more about the above protections, as well as protections relating to group contracts or retirement plans, please visit the Association’s website at www.mo-iga.org, or contact:

Confidential Communication: You have the right to request that we communicate with you about your medical information in confidence by means or to locations that you specify. You must make your request in writing, and your request must represent that the information could endanger you if it is not communicated in confidence as you request.

We will accommodate your request if it is reasonable, specifies the means or location for communicating with you, and continues to permit us to collect premiums and pay claims under your health plan. Please note that an explanation of benefits and other information that we issue to the subscriber about health care that you received for which you did not request confidential communications, or about health care received by the subscriber or by others covered by the health plan in which you participate, may contain sufficient information to reveal that you obtained health care for which we paid, even though you requested that we communicate with you about that health care in confidence.

Electronic Notice: If you receive this notice on our Web site or by electronic mail (e-mail), you are entitled to receive this notice in written form. Please contact our Privacy Office to obtain this notice in written form.
