## Extensive Local and National Access

**Blue KC dental network offers 390,000 access points for dental providers delivering convenient access along with cost savings.**

### About our dental networks

Blue Cross and Blue Shield of Kansas City (Blue KC) offers dental networks that provide broad access for our members:

Blue KC dental members can visit any licensed dentist within the local or outside of Blue KC service area networks. To receive the highest discounts and lowest cost sharing, members are encouraged to utilize providers available within the PPO network. Benefit levels are determined by the network designation of the provider.

#### **Blue Dental PPO Provider Network and GRID**

- Access to 1,100+ local in-network providers offering the highest discount level, resulting in the lowest out-of-pocket costs for covered services. Outside the Blue KC service area, members have access to the GRID Blue Cross Blue Shield National Network including 340,000+ access points nationwide.

#### **Blue Dental Choice Provider Network and GRID+**

- Largest access to in-network providers with 1,500+ local providers. Outside the Blue KC service area, members have access to the GRID+ Blue Cross Blue Shield National Network including 391,000 access points nationwide.

When a Blue KC provider is designated as both PPO and Choice or GRID and GRID+, the member will benefit from the higher discount and lowest out-of-pocket costs.

#### **Non-Participating Providers**

Seeing a non-participating dentist results in the highest out-of-pocket costs for covered services. Members may be responsible for filing claims and may be billed the difference between the network fee and the full fee charged by the non-participating provider.

### My Blue KC Dental Resource Center

The Blue KC Dental Resource Center provides members with online interactive tools and resources to assist with locating an in-network provider.

- **Locate A Dentist**

- Easily search by name, facility, location and/or specialty.
